ITALIAN SPORT DESIGN

Lotto Team Sport Apparel project is the answer to the soccer market's growing demand for top quality distinctive uniforms. With its in-house design, development and production capabilities, Lotto Team Sport is manufacturing high quality soccer apparel, providing custom team uniform solutions that reflect an association individual look.

Other brands change styles and colors without warning, forcing soccer clubs and schools to either send athletes into competition wearing mismatched uniforms, or face the expense of repeatedly replacing uniforms. With Lotto, designs and colors can be flawlessly reproduced across all teams and individual sports, season after season, year after year.

Our customization program primarily uses sublimation, a textile printing process our craftsmen mastered in Italy more than 30 years ago. Unlike traditional dyes which fade over time, sublimation enables any design and any color to permanently become part of the fabric, and won't compromise the moisture wicking properties of the fabric.

Based in Ormond Beach, Florida, Lotto Team Sport products are 100% American made. Using fabrics that meet the strictest guidelines for health, safety and environmental protection, our manufacturing process is environmentally safe.

Rather than settle for generic, foreign-made uniform styles and designs worn by other organizations, why not outfit your soccer program in our custom-designed, original gear?
